5. On 28 October, the D/CO presented certificates to the thirty-one members of graduating Telecommunications Assistant Class 3-83. Seven class members received out-of-cycle promotions based on academic achievement.

6. For several months a member of the OC Communications Security Division has been serving on a National Security Council working group which is drafting a National Security Decision Directive to replace PD/NSC-24, the National Telecommunications Protection Policy. The working group's final draft gave the National Security Agency certain authorities in the communications security and computer security disciplines which we believed were too broad. The DDCI was briefed on the draft last week by NSA's Deputy Director for Communications Security. We understand that the DDCI has asked for certain changes in the draft.
